

Advisory for Indian nationals travelling to/transiting via Tanzania

The High Commission has recently come across instances where Indian nationals have been found stranded in Tanzania. Many of them are falsely promised of better opportunities in foreign countries in lieu of which they have been charged substantial amount of money. In most of the cases, as it has been recently found, the Indian nationals are getting cheated and left in transit in Tanzania.

It is, therefore, advised that Indian nationals should observe all due diligence before accepting such offers.
